PROFILE SUMMARY

A versatile developer skilled in Flutter and MERN stack, with hands-on internship experience. Demonstrated ability to integrate features like real-time data visualization and user authentication. Developed a Chrome extension for phishing detection using machine learning, showcasing proficiency in data preprocessing, model training, and regression algorithms.

WORK EXPERIENCE

CLM Professional Consultant | Sirion

Dec'24 - Jun'25

- Responsible for activities like Contract Template creation to be integrated with the Sirion CLM Web App.
- Created Logics, on the basis of which users are able to generate their Contracts according to their requirements.
- Improved team efficiency by 10% for a major project deliverable.
- Handled JIRA tickets and bug fixes as per client requests.

Flutter Developer Intern | Aigroedge Technologies

May'23 - Jun'23

- Developed a Flutter-based Agro-tech application aimed at optimizing agricultural processes.
- Integrated real-time data visualization and analysis features using Firebase's Realtime Database, enabling users to monitor and analyze agricultural data in real-time.
- Integrated Google Maps API into the application.
- Implemented user authentication using Firebase Firestore, ensuring secure access to the application's features.
- Incorporated Rive Animation for the Onboarding page, enhancing the user experience with engaging animations.
- Collaborated within an Agile lifecycle model, contributing to iterative development and continuous improvement processes.

SKILLS

Development: Flutter | Dart | Firebase | JavaScript | Python | API | Tailwind CSS | 3JS | NodeJS | ReactJS | MongoDB | Express.js
Analytics: PowerBI | MySQL | Tableau | Excel | Software Development Life Cycle

PROJECTS

Portfolio Website using ReactJS and 3JS [\[Link\]](#)

- Developed a responsive web application using ReactJS to showcase my portfolio.
- Integrated 3JS functionalities to incorporate 3D models into the portfolio.
- Implemented responsive design principles to ensure optimal viewing experience across various devices and screen sizes.

Crunchyroll - Landing Page [\[Link\]](#)

- Tech stack: HTML, CSS, JavaScript.
- Enhanced user experience by utilizing a typed.js plugin for animated text.
- Designed an engaging banner section dynamically showcasing Crunchyroll's offerings.
- Implemented form validation using JavaScript for user input integrity.
- Incorporated local storage functionality for saving and retrieving user information, improving the user registration process.

FullStack Project - Notes App (MERN Stack)

- Developed a fullstack MERN notes application with a responsive React frontend.
- Utilized MongoDB and its CRUD operations for efficient data storage and retrieval.
- Created RESTful APIs using Express to handle backend operations.
- Implemented robust user authentication with login and signup pages.

PUBLICATIONS

Title: "Phishing Detection Browser Extension for Email Services"

Journal: International Journal of Financial Engineering

Status: Published ([Link](#))

CERTIFICATIONS

- Data Analytics with Python (**NPTEL**),
- Google Analytics Individual Certification
- Micro-Certification (**ServiceNow**),
- CCNAv7: Introduction to Networks (**CISCO**)

EDUCATION

- Amity University Noida, Uttar Pradesh, India
B.Tech in Information Technology | CGPA: 7.11

2020 - 2024
